You had it to do, John K.

Another British officer has sent in "regrets" from South Africa.

When the French journalists run short of copy they reopen the Dreyfus case.

It seems that Billy and Grover are determined to have "harmony" if they have to fight to get it.

SUPP. McCHESNEY has called a convention of Institute workers to meet at Lexington, June 25 to 27.

Recent issues of the Lexington Leader leads us to believe that that journal had been led to a leading specialist and undergone an operation.

It now seems that the Democratic party, up before the grand jury over in Missouri, will be transferred from the state house to "pleasant quarters" in the penitentiary.

The State Board of Equalization has passed Ohio county without any raise. Evidently they took into consideration the fact that we haven't a foot of decent public highway in our borders.

The Colorado, the first of the class of big armored cruisers authorized by the fifty-sixth Congress, was launched at Philadelphia Saturday. It is the largest war craft afloat that flies the American flag.

The place for the meeting of the Kentucky Educational Association has been changed from Mayville to Lexington, and the date to 23 to 25 of June. Ohio county should send up a large delegation.

The Tom-tom heaters in the Democratic party, who have been asserting that President Roosevelt is in sympathy with the trusts, will now have their hands full explaining away his vigorous prosecution of the Northern Securities case.

WHENEVER you hear anyone say that Hartford will never have this, or it will never have that, you should mark him down in your little book as a sure enough moonback, and give him an invitation to "Go way back and sit down." You can always count on somebody standing in the way of every public enterprise.

A CERTAIN man died in Texas not long ago, says the Galveston News, leaving fourteen years of subscription due a local paper. The editor of the paper attended the funeral, and just before the lid of the coffin was screwed down for the last time, he placed a linen duster, a thermometer and a palm leaf fan on the remains of the unlamented dead. Although editors are not accustomed to accumulate riches, they always seem to be kind and considerate.

BECKHAM has proven himself to be not an unskillful disciple of the unscrupulous political manipulator under whom he was schooled. He has been the chief beneficiary of the political machine conceived and put in operation by Goebel, and with the aid of the retinue of partisans clustered about him, he has been able to work the machine with an ease and smoothness unknown to its former chief. The manner in which Beckenridge and Hendrick have been "dropped" out of the gubernatorial race, clearly demonstrates the power of the Beckham machine to crush out all opposition in the Democratic ranks. One by one its opponents have been brought to the block. All are surely doomed and we only have to wait to see who shall be next. But Beckham may not have such smooth sailing when he goes before the public this fall to explain the unprecedented extravagance of his administration.

HERE are some rules which we publish for the benefit of the "summer

girls" who may have some scruples against making a phenological assay of the surrounding dome of a stupid beau with a broomhandle. Not all of them have been tried on us, but we are not afraid to guarantee a cure provided they are used judiciously.

Step on his feet.
Move your hands a little every time he opens his mouth. It will make him nervous. Underate his friends. Ridicule the things he likes and especially the people he resembles. Let him see you with men who are his superiors, while he sits bored and annoyed in the background.
Do not move like attempts to embrace you.
If he offers a caress turn the head a little to one side.
Never laugh when he laughs, or should you both happen to laugh at the same time, let him clearly understand that you are not laughing at the same thing as he is laughing at.
When he begins to tell you a story always interrupt him and begin another that has no relation to the one he is trying to tell you.
Plan to meet with all his plans for your pleasure.
Ask him for things he cannot possibly give you.
When you start to take a trip call a girl friend to accompany you.
If you try any of these rules and they fail to work, hand an account of your "adventure" into this office on a pole.

Heart Trouble Baffled Doctors.

Dr. Miles' Heart Cure and Nerve Cured Me.

There is nothing more necessary to health than sleep and rest. If these are denied you, if you rise in the morning more tired than when you went to bed, there is an affection of the nervous system present. If your heart is weak, or there is an inherited tendency in that direction, your weakened nerves will soon affect your heart's action as to bring on serious, chronic trouble. Dr. Miles' Nerve and Heart Cure is a great blood and heart tonic which regulates the action of the heart, enriches the blood and improves the circulation.

"Some time ago I was suffering severely with heart trouble. At times my heart would seem to stop beating and at others it would beat loudly and very fast. Three to four hours sleep each night in ten months was all I could get. One week in last September I never closed my eyes. I got Dr. Miles' Nerve and Heart Cure at a drug store in Lawrenceburg, after spending \$4000 in medicines and doctors in Louisville, Shelbyville, Frankfort, Cincinnati and Lawrenceburg, and in three days have derived more benefit from the use of your remedies than I got from all the doctors and their medicines. I think everybody ought to know of the marvelous power contained in your remedies."

Reports from the rural districts indicate that the county will be practically depopulated on May 15 and 16. The entertainment promised by the business men here is something that has not been seen here before. Hartford don't think will see the largest crowd it has ever seen.

Martin Conner was indicted last Saturday in Owenboro for the murder of Ben Cutler last Christmas. Conner was dismissed on his examining trial before Judge Hoskins a few days after the murder, but subsequent developments caused the grand jury to return an indictment for murder. Conner was released on bond.

The lectures at the Court House Saturday night and Sunday afternoon by J. W. Dissmore, A. M., of Berea, Ky., were replete with good advice to young men. He proved himself to be a man of rare and diversified knowledge, and the highest intellectual attainments. Those who failed to hear him missed a splendid intellectual treat.

Roscoe Embury, the seven-year-old son of Rev. J. H. Embury, pastor of Beaver Dam circuit M. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. BEN ROGERS CAPTURED.

Al Chinn's Slayer Landed Behind the Bars Yesterday.

Yesterday morning Ben Rogers, who killed Al Chinn at McHenry, was captured three miles south of Caneyville by H. C. Stinson, a negro, at whose house he had been staying. He left Stinson's home a few days ago saying he was going to Bowling Green. In the meantime Stinson came in possession of the descriptive circular with his picture, sent out by Sheriff Keown, and on going out to feed yesterday morning he found him in the hay loft and placed him under arrest. He then took him to Caneyville, and with the aid of Asa Harnerd, brought him here. If reports of the murder be true Ben Rogers will most certainly expiate his crime on the scaffold. A reward of \$200 will be paid to his captors.

HORRORS OF LAKE LAND

Another Patient Incurred the Displeasure of an Attendant and was Ducked in Cold Water.

We would call the attention of our readers to the mistreatment of the inmates of the Central Asylum for the Insane of Lakeland as brought out by, as yet, an incomplete investigation conducted by a committee of the Cord of Commissioners of that institution.

The investigation was compelled by a letter written to one of the Louisville papers by a lady living near the railroad station at Lakeland. In that letter it was stated that on a certain day a number of the inmates of the asylum, in charge of attendants, were at or near the station and that one of the attendants was seen to choke, strike, throw to the ground and while down to kick several times one of these insane persons.

The newspapers published the letter in substance and asked Dr. F. L. Smith, the medical superintendent, if he intended to investigate the alleged brutality and he replied that he had investigated it by examining the patient who was said to have been mistreated, but failed to find upon his body any bruises such as would have been present if the patient had been mistreated. He said he was therefore satisfied that the lady was mistaken and knew that the institution was well managed.

The newspapers demanded an inquiry and the Board of Commissioners met and appointed a committee to conduct the investigation. It appears from the newspaper reports that the officers and attendants did not give the committee the kind of aid likely to assist in bringing to light abuses, if any existed, but after a little perseverance of the part of the investigating committee, discoveries of brutal and inhuman treatment came thick and fast.

It was shown that an attendant had thrown a patient in the dining room and while he had the patient on the floor jumped on him with his knees, breaking two of the patient's ribs. The patient was then dragged from the dining room and after a time put to bed, to which, in consequence of his injuries, he was confined for several weeks.

Another patient incurred the displeasure of an attendant and was ducked in cold water, wrapped in a sheet and set in a corner to dry and although he complained of suffering from cold and asked for clothing it was refused.

It was also stated that the patients were beaten with slugs and shot made by putting raw potatoes into stockings; that they were struck with bunches of keys; that wet towels were wrapped around their faces and allowed to remain until the patients were almost unconscious.

These are a few of the methods of treating insanity at Lakeland as brought out by the investigation and published in the Louisville papers. If an incomplete investigation held under difficulties could discover these things near the surface, what horrors must lie hidden deeper down!

The Cause of Many Sudden Deaths.

There is a disease prevailing in the country most dangerous because so deceptive. Many sudden deaths are caused by it--heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney poisons in the blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both of Swamp-Root, sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

is investigating the conduct of the asylum and the attendant who broke the patient's ribs has been indicted for assault and battery, and more indictments will in all probability follow.

But the indictment of a few brutal and incompetent attendants will not put a stop to such brutality, nor will the removal of the medical superintendent and his assistants reform the abuses, for the cause of his brutality and incompetency of management lies deeper. The fault is in the system of governing such institutions.

The commissioners, medical superintendent and the assistant medical superintendents, stewards and other officers are appointed by the Governor and these positions are regarded as political spoils and given out as such. These officers are not appointed because of their fitness for or adaptability to the positions, but as a reward for political services rendered to the successful candidate or party, and in turn the positions at the disposal of the medical superintendent and stewards are given for like reasons.

Such a system is a blot on our civilization. These institutions should be taken out of politics; they should be managed by non-partisan boards; the medical superintendent should be an alienist of reputation and appointed for life or during good behavior by the Governor upon the recommendation of some such body as the State Medical Society; the superintendent should have the power to choose his assistants and nurses without interference and fitness alone should govern appointments.

These institutions are maintained by the Commonwealth and are supposed to represent our ideas of humanity, of the proper care and treatment of our sick and unfortunate and to mark our progress in the arts of civilization.

What Kentucky is willing that his State and the people shall be judged by the administration of its charitable and penal institutions? Is it not time for the people to see to it that no man shall be nominated by either party as its candidate for Senator or Representative in the State Legislature who will not pledge himself to the following:

Keep it in Your Home, And when the bowels fail to act properly, take a dose of LYON'S LAXATIVE SYRUP--It acts gently but effectively on the kidneys, liver and bowels; will keep your system in good working order and make your complexion clear. For sale by J. Thos. Allen, Rosine, Ky.

She--You certainly wouldn't marry a girl for her money, would you? He--Of course not. Neither would I have the heart to let her become an old maid merely because she had money.--London Tit-Bits.

Artistic Monuments

COST NO MORE THAN PLAIN ONES IN White Bronze.

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Besides, it is very expensive. White Bronze is steadily increasing. It cannot crumble with the action of frost. Most growth is an impossibility. It is more artistic than any stone. Then why not investigate? It has been adopted for nearly one hundred public monuments and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. We have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave-cover. On receipt of a postal card will be pleased to call with designs and sample of White Bronze.

Yours truly, D. J. RHOADS, Beaver Dam, Ky.
